Dear Clerk,

Subject: Proposed 5G Telecommunications Installation for H3G UK

The purpose of this letter and its enclosures is to inform stakeholders of our proposed installation prior to the submission of a formal planning application. The application will be in the name of CK Hutchison Networks (UK) Ltd who will be responsible for construction of the site, the Operator will be H3G better known as Three.

As you will see we have already undertaken several steps in the site identification process having examined the Radio Communications Agency Mast Register, our record of other operators' sites and the council's own mast register. In addition, the policies in the council's development plan have been examined and any relevant planning history of the site. This has led to us identifying the following potential site:

Site Name/Address: WESTFIELD WAY STREETWORKS, HAYDON WICK, SWINDON,
WILTSHIRE, SN25 1QX

NGR: 413369E, 188325N

Type of Installation: Proposed works include the installation of an 18 metre-high monopole supporting 6no. antennas, 4no. equipment cabinets and development works ancillary thereto.

The exact location of the site and a detailed description can be found on the enclosed drawing Ref: SWN16114_RevA.

The site identified has been rated Amber under the voluntary Ten Commitments Traffic Light Rating System.

All H3G UK Ltd installations are designed to be fully compliant with the public exposure guidelines established by the International Commission on Non-Ionizing Radiation Protection (ICNIRP). These guidelines have the support of UK Government, the European Union and they also have the formal backing of the World Health Organisation. A certificate of ICNIRP compliance will be included within the planning submission.

If you have any feedback on these proposals we look forward to receiving your comments and if you are aware of any other local organisations that are not statutory consultees that you consider should be informed please let us know and we will endeavour to consult with them.

Yours faithfully,
