Dear Cllrs

Further to the formal advert of the proposed introduction of parking restrictions on Casterbridge Road , please find attached a copy of two objections that were received.

The next step of the process , if you are all happy for this to proceed to be implemented on the highway is to drafted and circulated a delegated authority to the Head of Strategic Transport & Infrastructure to sign off.

Please can you let me have your comments back before the 25 September 2020 advising that you are happy to proceed to the next step.
