

Georgina Morgan-Denn

Subject: Community Woodland - Oakhurst Area

Hi Georgina,

A lot of our neighbourhood have spoken and have concerns regarding the woodland area becoming taken over by brambles as all our hedgerows out the front of our houses – who Haydon Wick are supposed to tend to, do not and becoming a real pain and nuisance for us all. Who is going to water and keep the upkeep of theses trees? The purpose when the houses were built was that this area was a designated green space on our plans and now you want to fill it with trees?

Can we please address the Anti Social Behaviour problems first that occur over the bridge area and to the left – the bench is still there and groups still gather and leave a huge amount of mess and also is area for drug exchanges, so please get rid of this bench ASAP or get cameras put up in this small green area over the small footbridge to the left.

Thank you
