FW: ExternalRe: ExternalResurfacing Review

Thank you for getting back to me. This letter is supported by all the residents of Holmleigh, as well as those on the adjoining road, Wheatlands.

We are concerned that the condition of the road will deteriorate further over the winter. Due to its steep nature and the volume of traffic it carries for all residents, it does not cope well with adverse weather conditions.

Regards

Jayne Timmins

Dear Jayne,

Thank you very much for drafting the attached letter. I have raised this with the Council. You said that the letter was collated by local residents, please, can you let us know how many residents support this request? This piece of information would help us to understand the strength of feeling and help when communicating with officers.

[@Georgina Morgan-Denn](#) - please, let us know the outcome of the discussion by the planning committee. As you said, resurfacing is not within the remit of the parish council, however, it would be valuable to understand the view of the planning committee, as the key community stakeholder.

Thank you.

Kind Regards,

Stanka

Cllr Stanka Adamcova
Haydon Wick ward

Dear Jayne

Thank you for your letter.

I will add your letter to the Planning & Highways Committee agenda on the 26th November. However, as you've stated it's not in the Council's remit to manage the surfaces of the roads and I'd encourage you to speak to your SBC Ward Councillor (who I've copied into this email). They are best placed assist and champion this on your behalf with SBC Highways Team.

If you would like to join us for our committee meeting please let my colleague Julie know and she'll keep in touch with you.

Kind regards
Georgina

Good afternoon Georgina,

I attach a letter collated by the residents of Holmleigh and Wheatlands seeking support from the borough council to resurface the road of Holmleigh

Kind regards

Jayne
