## Officer's Recommendation:

To note only.

We have started to receive a few enquiries from our regular bookers and users of these facilities and with the anticipated easing of lockdown restrictions from 21 June we are considering opening up these services as of July.

We have consulted our H&S Advisor regarding the risk assessments we have in place and have been advised to review them further, nearer the time we anticipate recommencing these services, in order to encompass the current guidelines.

In the meanwhile, we are arranging for a meeting with our volunteer bus drivers to familiarise them with the process for recommencing the service.

A further update shall be provided at the 15<sup>th</sup> June Finance & Policy meeting.
