

Meeting	Planning & Highways Committee
Date	24 th February 2026
Report Title	Resurfacing Review – Holmleigh and Wheatlands
Agenda Reference	10
Author	Councillor L Jackson

Officers Recommendation

1. To note the update of the resurfacing issues at Homleigh & Wheatlands and agree any next steps.

Purpose of Report

To inform and update Members of the resurfacing issues at Homleigh & Wheatlands.

Background

The Council received initial requests from residents of Holmleigh and Wheatlands regarding resurfacing concerns on 11th November 2024. The residents were concerned about the deteriorating condition of the road due to the high volume of traffic and adverse weather conditions.

Status with Swindon Borough Council (SBC)

This resurfacing issue was passed to Councillor S Wilson and has been identified on the Local Transport Plan for proposed repairs within the 2026/27 financial year following this going to Cabinet in March 2025.

Councillor S Wilson received the following, which has been passed on to the resident:

- *"Whilst the LTP Implementation Plan 2026 programme is currently being reviewed for Cabinet in March, from a carriageway maintenance perspective we do not envisage any changes to Holmleigh & Wheatlands carriageway works being proposed within 2026/27 financial year. At this stage I couldn't comment on any indicative works programme for the sites. We typically request from the internal design team that such works are carried out before November each year, but there can be unknowns that may delay works delivery past this date."*
