You don't often get email from clerk@haydonwick.gov.uk. Learn why this is important

Dear Paul

Haydon Wick Parish Council's Planning & Highways Committee did not have any comments or concerns regarding the Base Station Upgrade.

Thank you for including us in your consultation process.

With best wishes
Georgina

Dear Paul

Thank you for the notification.
I will ask my Parish Council this week if they have any comments and respond to you by Friday.

Best wishes
Georgina

fao Priory Vale Ward Councillors and Haydon Wick Parish Council

Dear CouncillorsHughes, Manro and Stevenson and , Georgina Morgan-Denn, Clerk

PROPOSED BASE STATION UPGRADE AT Existing telecommunications base station site at grass verge Thamesdown Drive, at the junction with Purton Road, Swindon, Wiltshire, SN2 2SG (CELL SITE REF: 12852324 Junction Thamesdown Drive/Purton Road)

Cornerstone is the UK's leading mobile infrastructure services company. We acquire, manage, and own over 20,000 sites and are committed to enabling best in class mobile connectivity for over half of all the country's mobile customers. We oversee works on behalf of telecommunications providers and wherever possible aim to:

- promote shared infrastructure
- maximise opportunities to consolidate the number of base stations
- significantly reduce the environmental impact of network development

Cornerstone are in the process of progressing suitable sites in this area for radio base stations that will improve service provision for Vodafone. The purpose of this email is to consult with you and seek your views on our proposal before proceeding with the works. We understand that you are not always able to provide site specific comments, however, Cornerstone and Vodafone are committed to consultation with communities for mobile telecommunications proposals and as such would encourage you to respond.

As part of Vodafone's network improvement program, there is a specific requirement for a radio base station upgrade at this location to provide improved network services in the area.

Mobiles can only work with a network of base stations in place where people want to use their mobile phones or other wireless devices. Without base stations, the mobile phones, and other devices we rely on simply won't work.

Please find below the details of the proposed site: -

Our technical network requirement is as follows:

- Cornerstone 12852324 Junction Thamesdown Drive/Purton Road
- To provided improved network coverage and capacity for Vodafone, including 5G

We consider the best solution is as follows:

- **Land at existing telecommunications base station site at grass verge Thamesdown Drive, at the junction with Purton Road, Swindon, Wiltshire, SN2 2SG (NGR: E 412193, N 187521)**

- Description of the Proposal: The upgrade of the existing telecommunications base station comprising the replacement of the headframe, with no increase in height (height to top 17.5m), associated 6 no. antennas, the installation of 1 no. 300mm diameter dish antenna, the siting of 1 no. radio equipment cabinet, with 2 no. equipment cabinets to be removed and ancillary works.

This upgrade proposal with minimal visual impact is considered to be the preferred and logical option and as a consequence no alternative site options have been considered

and rejected. It is a proposal that will utilise permitted development rights. There is no requirement for the submission of a formal planning application.

The Local Planning Authority mast register and our records of other potential sites have already been reviewed, the policies in the Development Plan have been taken into account and the planning history of the site has been examined.

All Cornerstone installations are designed to be fully compliant with the public exposure guidelines established by the International Commission on Non-Ionizing Radiation Protection (ICNIRP). These guidelines have the support of UK Government, the European Union and they also have the formal backing of the World Health Organisation.

We look forward to receiving any comments you may have on the proposal within 14 days of the date of this email.

Should you have any queries regarding this matter, please do not hesitate to contact me (quoting cell number 12852324).

Yours sincerely,

(for and on behalf of Cornerstone)

In the first instance, all correspondence should be directed to the agent.
